

# 富士聖地 Fuji Ceremony Highlights

**Ceremony for the Descent of the Ultimate Universal Light, March 4, 2012**

March 2012

*The ceremonial day was cold, cloudy, and foggy, but the forecasted rain started only after the ceremony. After the opening remarks by Mr. Naya, everyone joined in the recitation of the creed and offered the prayer for world peace. Under the lead of Rika Sensei, the participants prayed for peace in the 194 countries including all the other regions in the world.*

*In a similar manner than last month, she also led the participants in a divine activity for peace in Israel and Palestine. Finally, Maki Sensei led everyone in the recitation of the Prayer of Kotodama, three times.*

## **Opening Remark by Mr. Naya**

*Mr. Naya referred to Yuka Sensei's speech given at the UN in February, which he said had been a great success. He mentioned that she was still overseas participating in a conference.*

*Emphasizing the importance of the ceremony, he spoke the following:*

*'I believe that each time we are showered by the ultimate universal light in this ceremony, synchronicity occurs in our original nature as threads of light of the*

Universal God, multiplying the vibration of *Ware Soku Kami Nari* within us. Because we absorb light directly from the Universal God, we are able to share this light with humanity at critical times, thus fulfilling our mission. With deep gratitude to Goi Sensei and other divinities for enabling us to work at the time of the Earth's great change, let us guide today's ceremony to an accomplishment.'

### **Talk by Rika Sensei**

*Rika Sensei also mentioned Yuka Sensei's speech at the UN, which she said brought deep emotion in the audience, and received a standing ovation.*

'Our prayers and way of life have steadily been dispatched to the world. The regaining of divinity has already started from Japan and is beginning to spread to the world. I feel that the divine activity we fulfill everyday has actually been extinguishing waves of fear. Masami Sensei says that right now, our prayer and kotodama can never be enough because they are absorbed the instant we offer them. However, each time I pray and recite the kotodama, I feel a sensation that I am connected straight with heaven and with many people who share the same vibration. Toward 2015, let us further strengthen and enhance this circle, and accomplish recovery of humanity's divinity by all means.'

### **Talk by Masami Sensei**

'All sorts of incidents will start occurring from now on. Through them and through our kotodama and mandala, humanity will be guided toward awakening to truth. People who are bound by fixed ideas and common sense, adhering to money, status, power and background, and are taken by such thoughts as *'We must expand our*

*territory,' 'We must monopolize oil and other resources,' and 'We don't care causing wars and sacrificing other nationals for the sake of our own happiness',* have already been left behind. They are being expelled from the divine tide and are struggling.

I received a tremendous message from Goi Sensei.

A large door for the Earth's rescue has finally been opened; the first round of *'domino toppling'* – Universal God's light received by Goi Sensei and handed down to the prayer members – has been completed. Even if our fellow prayer members are not present here, through their existences in their given places as mediums for the prayer, they are working as co-resonant bodies of the Universal God.

Divinities are now preparing for the second round, which will surely be accomplished through your existences and effort.

There is one additional divine message that must be carried out before 2015.

\*We are holding a SOPP at the UN in 2013. This is totally attributed to your serious prayers until now, as well as to your belief that everything is heading for the better, however the circumstances are. The tide of spirituality has already begun. Hence, I see that about one-fifth of your physical vibration has been replaced by spiritual vibration. Consequently, you can accomplish just about everything. Just by repeating 'Everything is heading for the better' and 'Everything will be absolutely all right, everything will surely turn out just as you desire. There is absolutely nothing that does not go as you wish.'

*To conclude, the participants received the ultimate universal light, and shouted "Jôju".*

*\* We are thinking of holding a SOPP at the UN in 2013 and there are good possibilities for it to happen.*
